## Education

**Career Acceleration Program**  
Prepleaf by Masai School  
February 23-Present

**Bachelor of Computer Science**  
Sawmi Ramanand Teerth  
Marathwada University Nanded  
July 22-Present

**Higher secondary education**  
Sukhdevan Jr. College,  
Bhandegaon  
June 20 -March 21

## Technical Skills

Python HTML5 CSS3  
C++ JavaScript Git

## Soft Skills

Adaptability Teamwork  
Time Management  
Attention to Detail  
Problem Solving

## Certifications

Hukumu Interview Hackthon  
Masai School

# Roshan Tapre

## Algorithm Developer Intern

## Professional Summary

Driven DSA Intern adept in Python and fundamental data structures. Demonstrated strong problem-solving skills, applying logical thinking to tackle diverse challenges. Proficient in implementing algorithms, including sorting techniques and recursion. Excited to contribute effectively in a tech environment.

## Projects

**YouTube and Instagram video downloader** [Github Repo Link](#)

- Developed a application to download videos from YouTube and Instagram using Python library pytube-and-instaloader
- Implemented algorithms to extract the video URL and download the video using Python

**GUI calendar using Python** [Github Repo Link](#)

- Developed a GUI calendar application using Python.
- Utilized Tkinter library for creating the graphical interface and managing user interactions.

**Rate in Maze Game** [Github Repo Link](#)

- Developed a maze game where the player needs to find the fastest way to reach the target.
- Implemented a rate algorithm to calculate the optimal path through the maze based on time constraints.
- Conducted extensive testing and debugging to ensure accurate and efficient algorithmic performance.
